

Med Rec	123456789	Study Time:	3:45 PM
DOB:	1961-12-12	Location:	
Age:	49	Sonographer:	ES
Gender:	M	PCP:	
Race:	White	Referring:	Unassigned CARDDX
Height:	63.00 in	Reading:	Cardiovascular Diagnostic Services
Weight:	210.00 lbs	Study Quality:	Excellent
Equip.			

Carotid Screening			
	Max CIMT (mm)	Mean CIMT (mm)	Mean Percentile (%)
Right CCA		0	
Left CCA		0.623	47

Statistics based on Atherosclerosis Risk in Communities Study. Left dist CCA mean CIMT value is used to plot percentile lines.

Calculated Vascular Age: 48

Carotid Ultrasound study for cardiovascular risk assessment

Findings:

Conclusions:

Normal Carotid IMT screening.
